

HI-TECH CHEMICALS

Odor Remover BT-100A

(For general use)

Performance and features:

Odor Remover is a kind of deodorant by method of absorption and reaction and also has a good dispersion. Compared with other methods of deodorant, it can completely eliminate the odor of paint and PP, PE, PVC, ABS, PS plastic, rubber, rather than using other scents to cover. It has strong absorption of CO₂, SO₂, nitrogen oxide exhaust gas (NOX), ammonia (NH₃) pesticide bottles, cosmetic bottles, beverage bottles, chemical additives, residues scents, but the original smell of plastic, rubber, paint, ink, paint will not change. BT-100A has no smell with non-toxic and non-stimulation which has passed SGS Certification.

The scope of application:

BT-100A can be used in the processing of Plastic PP, PE, HDPE, PVC, PS, PA, ABS, EVA, shoes material, rubber, paint, ink, paint etc.

Dosage:

The dosage of BT-100A recommended: 0.1-0.3% for plastic, while 0.8-1% for rubber material. So economically we recommend BT-120A for rubber application, dosage is 0.1-0.3%.

Packaging and storage:

BT-100A is powder form and 15KG are packed in one carton with aluminum packaging inside. It should be stored in a clean, ventilated, dry place with storage period of 12 months.

Note:

The smell will gradually be eliminated when the product gets cool after adding the deodorant. If the deodorant is added too much, the product will be affected to yellowing.

(End)
